Stopford

Stopford are a leading provider of online booking systems within local government, providing systems for over 95 local authorities throughout the UK.

We provide solutions across a wide variety of council service areas with each designed to meet the requirements of the service without compromise, enabling us to provide a tailored solution at an off the shelf price.

Our systems encompass bookings for appointments, facilities, sports pitches, courses or events and we provide a complete turnkey service from business analysis to delivery, working closely with our clients to deliver a service that meets their requirements.

We are dedicated to providing a first-class service to our clients, including exceptional after sales support and hosting services that are all based in the UK.
