OCF

Advancements in computing systems have made it possible to tackle huge obstacles in simulation. We're advancing our understanding of the world and universe at an exponential rate.

Supercomputers are everywhere - from product design, oil field exploration, financial risk assessment, genome mapping to weather forecasting and essential academic research.

OCF Limited is a High-Performance Computing, Storage and AI Integrator with well over 15 years' experience in delivering transformational solutions to a host of academic, research institutions and enterprises.

Lenovo, according to the [Top500.org](https://www.top500.org) [1], are the number-one supercomputer provider - including some of the most sophisticated supercomputers in the world. With industry leading technology and HPC architects and experts, OCF in Partnership with Lenovo & Intel take a customer-centric approach to provide the HPC & AI solutions and Services that best meet your needs for now and the future.
